

SHOOT GUIDE

Frames, timings and set-ups for the Day-1 factory shoot and every launch post.

10 FACTORY SCRIPTS

18 LAUNCH POSTS

144 DRAWN FRAMES

9:16 · 4:5

Read this first. Frames are drawn composition guides, not final looks. Timings for S1–S8 and S10 and every on-screen line come from the launch plan; shot sizes, camera moves and the schedule are suggestions. Post beats marked **PROPOSED** are new.

Ten scripts, one factory, one day

ORDER FROM THE PLAN

TIMES ARE PROPOSED

MACHINE BLOCK

They share the cut footage, so keep rolling on every cut.

S1	Bilkul Fit Hai	25s	09:30
S2	The Bubble Roommate	25s	10:30
S3	60 Seconds, Go	30s	11:15
S9	Types of Customers	30s	12:15
S10	POV: I'm the Film	30s	13:15

TABLE BLOCK

Under the lights. Lock the camera for S6.

S4	Which Half?	12s	14:30
S5	Uncle, Not the Kurta	20s	15:00
S6	Your Phone Is Not a Mirror	15s	15:40
S7	"Glass Wala Do"	20s	16:10

WINDOW BLOCK

Last, with daylight.

S8	Not Your Screen, Uncle	20s	16:50
----	------------------------	-----	-------

PROPOSED DAY

09:00	Call. Kit check, consent forms, light the machine area.
09:30	Machine block: S1, S2, S3, S9, S10 (about 4.5 h)
14:00	Lunch and reset to the table.
14:30	Table block: S4, S5, S6, S7
16:50	Window block: S8 (needs daylight)
17:30	Wrap. Back up cards twice. Log every real timer.

Check first: the plan puts S8 last. If the window loses light before then, swap it earlier. Sunset in early October is close to 18:00.

KIT LIST

- From the plan: 1–2 dummy phones
 - CLEAR, PRIVACY, MATTE and TUFF films
 - Kiosk cutter, dust wipes, microfiber cloth
 - A glossy dummy (S6), a window (S8)
 - Real stopwatch for every cut
- Suggested: 2 tripods, 1 gimbal, clip-on macro lens
 - 2 lav mics or one phone mic on a boom
 - Tape to mark 35° and the phone position
 - Spare film sheets and a spare dummy
 - Consent forms and a pen on a clipboard

CREW (SUGGESTED)

Director / DOP Owns the frames in this guide and the 9:16 crop.	Camera B / macro Inserts, slow-mo, the kiosk screen.	Sound Room tone, ASMR (S5), voiceovers (S2, S10).
Continuity Timer log, film used, which half is CLEAR (S4).	Talent wrangler Casting, wardrobe, consent forms.	Runner Reset props between takes, snacks, chai.

One frame, one decision

Yellow ghost offset

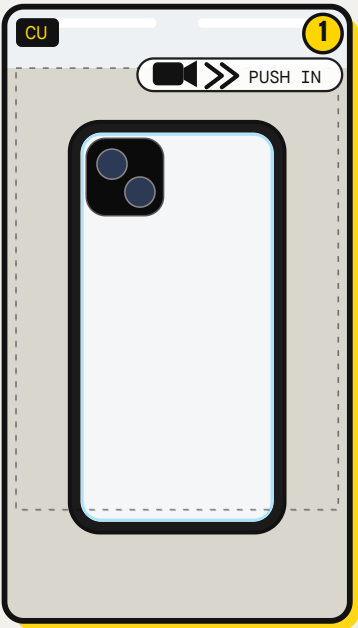

The “almost”. Every frame carries one. Our film closes the gap.

Frame number

Yellow disc, top right. Matches the caption below.

Shot chip

Shot size: MACRO, CU, MCU, MS, WS. Black chip, top left.

Dashed box

Safe zone for 9:16. Keep faces and text inside it, clear of the platform buttons.

Camera move icon

White pill, top right under the number: LOCKED, PUSH IN, PULL OUT, TILT, PAN, GIMBAL ARC, HANDHELD, OVERHEAD.

Timeline rail

Top of every script page. Width is the real duration of each beat.

RULES THAT LIVE ON EVERY SET

01 Sparkle logo only.

The original has six-point stars that many in Pakistan read as a Star of David. Use the four-point sparkle on every file and the kiosk sign. No close-up of any logo that still has the stars.

02 Say it by the spec sheet.

“Scratch-resistant (3H–5H)”, never “scratch-proof”. Impact talk is TUFF’s alone: never “unbreakable” or “shatterproof”. “99%+ light transmittance” (CLEAR).

03 Receipts, or it didn’t happen.

Real timers. No speed-ramps. The “under 60 seconds” line only goes out if the take really is. The privacy film goes dark at 35° for real, in camera.

04 Consent.

Written permission from every person filmed (A3 winners, C4, D1). Cast a friend as the neighbour in D3. No broken phones for A2.

05 Dummy screens don’t light up.

Only the film’s own behaviour is shown as proof. Skits play as comedy.

06 Every post points to the kiosk.

Location, hours, opening day, or “will it fit mine?”.

DELIVERY SPEC (SUGGESTED)

- Vertical 9:16, 1080×1920, 30 fps
- Dialogue in Roman Urdu, English subtitles burned in
- 120 fps or more for slow-mo beats only
- Record 30 s of room tone per location
- Phone on a tripod unless the frame says HANDHELD
- Shoot every beat three times, keep rolling on cuts
- Clean the lens and the dummy before every take
- Carousels and photos: 4:5, 1080×1350

Timers are real. Nothing on screen is sped up, slowed down or faked except where this guide says SLOW-MO.

0-3s	3-7s	7-11s	11-21s	21-25s
------	------	-------	--------	--------

0-3s

CU → MCU · Crooked film, edge lifting. Shopkeeper, proud.

SHOP: "Bilkul fit hai, bhai." (Fits perfectly, bro.)

TEXT: EVERY SHOP. EVERY TIME.

3-7s

CU → MS · Customer tilts phone to camera; camera hole sits half over the lens.

CUST: "Bhai, camera ka hole kahan gaya?" SHOP: "Naya design hai." (It's the new design.)

7-11s

MACRO · Customer pokes the bubble; it slides around.

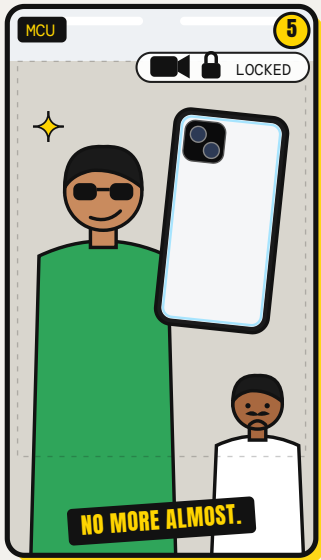

SHOP: "Do din mein khud chala jayega." (It'll leave by itself in two days.)

TEXT: IT DID NOT LEAVE.

11-21s

WS + INSERTS · Record-scratch cut to the kiosk: pick the model, blade cuts, wipe, peel, smooth. Real timer in the corner.

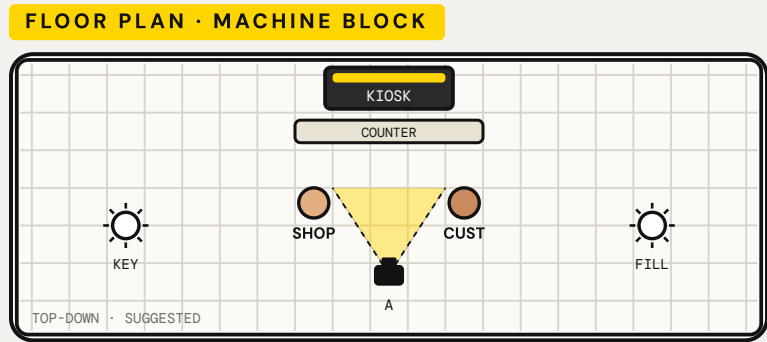

21-25s

MCU 2-shot · Customer holds the phone up, edge flush. Shopkeeper, tiny voice.

CUST: "Ab bolo." (Now say it.) SHOP: "...bilkul fit hai."

TEXT: NO MORE ALMOST.

CAMERA AND EDIT NOTES

- Shots: CU · MACRO · WS · MCU
- Moves: pull out, pan, locked, record-scratch cut

Reel 9:16 · 8s

Photo 4:5

TikTok + Instagram

0-1s

Empty yellow grid. Hands enter.

1-6s

Eight "almost" phones drop in one by one. Marker circle on each flaw.

6-7s

Phone nine lands softly. Spotless.

7-8s

Text card.

PROPOSED BEATS

ON-SCREEN TEXT

- » 8 GOT "ALMOST".
- » I GOT CUT FOR IT.
- » NO MORE ALMOST. COMING SOON.

THE LOOK

Knolling flat-lay: straight overhead, hard even light, yellow seamless, every phone squared to the grid, a marker circle on every flaw.

CAMERA AND SET (SUGGESTED)

Overhead rig, phone or camera pointing straight down; 60 cm above table; hard even key from both sides; mark the 3x3 grid with tape.

House rule: Use real, worn-out films from friends and family. Nothing faked, nothing broken on purpose.

PHASE 1 · W-3 FRI

A2 Every phone falls

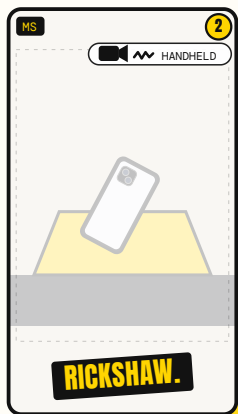

Reel 9:16 · 12-15s

0-2s

Hook text over a still: "near-death experience this month".

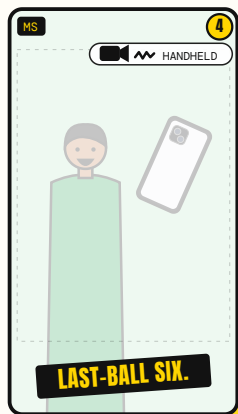

2-3.7s

RICKSHAW. Phone slips off the seat. Freeze + white flash + label.

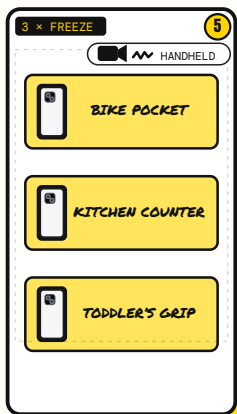

3.7-5.4s

SHAADI DANCE FLOOR. Freeze mid-air.

5.4-7.1s

LAST-BALL SIX. Same freeze treatment.

7.1-12s

Three more (bike pocket, kitchen counter, toddler's grip), one word each.

12-15s

End card.

PROPOSED BEATS

ON-SCREEN TEXT

- » RICKSHAW.
- » SHAADI DANCE FLOOR
- » LAST-BALL SIX.
- » DON'T WORRY. WE GOT YOU.

THE LOOK

Sports-broadcast freeze frames: a hard white flash on every freeze, trending audio with a clean beat drop.

CAMERA AND SET (SUGGESTED)

Handheld phone at eye level for each location; shoot every drop three times; cushion just below frame; cut on the beat, freeze 6-8 frames before impact. Smash never appears.

House rule: "We got you" means we protect you fast, not "your phone can't break". Every freeze is staged over a cushion. No phone is broken for this.

- 2 · Strip of freshly cut film curling across the cutting mat. Cut it live on the kiosk, do not use offcuts from another day.
- 3 · 6 s slow orbit: slider or gimbal, 90° arc, left to right, end on the label.

ON-SCREEN TEXT

- » FOUR FINISHES. ONE MACHINE. CUT FOR YOURS.
- » CLEAR — LOOKS LIKE NOTHING'S ON
- » PRIVACY — FOR NOSY NEIGHBOURS
- » MATTE — FOR NOON SUN · TUFF — FOR BUTTERFINGERS

THE LOOK

Tech family shot: low three-quarter angle, soft shadow, one warm key light, a marker label under each box.

CAMERA AND SET

Slider or gimbal at low three-quarter; one warm key at 45°; white sweep; cut a real strip of film for the mat.

House rule: Boxes always line up CLEAR, PRIVACY, MATTE, TUFF here and everywhere after. A strip of freshly cut film curls across the cutting mat.

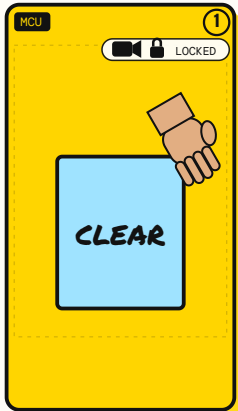

B3

PHASE 2 · W-1 WED · 1 OF 4 REVEALS

CLEAR · Spot the film

Reel 9:16 · 12-15s

1 of 4 reveals

0-2s

CLEAR box opens.

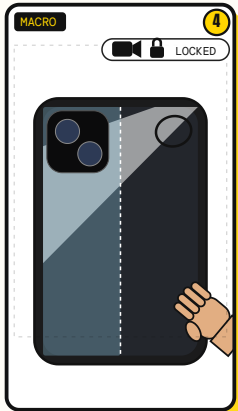

2-5s

Split screen: the phone, tilted slowly under light.

5-9s

Hold ~2s. "Comment LEFT or RIGHT."

9-12s

Fingernail lifts the corner: reveal.

12-15s

Answer + spec.

PROPOSED BEATS

ON-SCREEN TEXT

- » ONE HALF HAS OUR FILM. WHICH ONE?
- » A. 99%+ LIGHT TRANSMITTANCE.

THE LOOK

Split-screen spot-the-difference. Hold the pause about two seconds so people have time to comment.

CAMERA AND SET (SUGGESTED)

Phone on a locked tripod, flat on a table, same light for both halves; film on one half only; the fingernail reveal in macro.

House rule: Open the box first, then prove the spec on a real phone. Decide in advance which half has the film (see S4).

B4

PHASE 2 · W-1 THU · 2 OF 4 REVEALS

PRIVACY · Side-eye proof

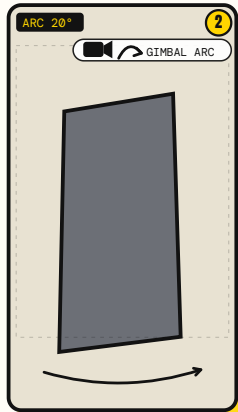

Reel 9:16 · 12-15s

2 of 4 reveals

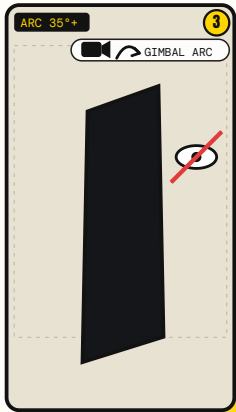

0-3s

Straight on. Screen perfectly readable.

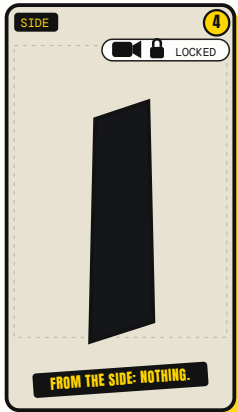

3-7s

Arc swings out, past 20°, screen fading.

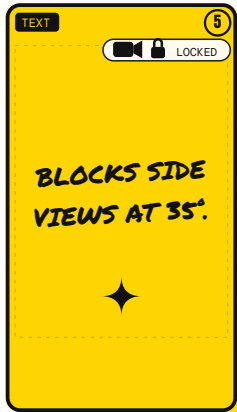

7-10s

Past 35°: screen goes dark. Eye doodle crossed out.

10-13s

Hold at the side, still dark.

13-15s

Spec text.

PROPOSED BEATS

ON-SCREEN TEXT

- » FROM THE FRONT: ALL YOURS.
- » FROM THE SIDE: NOTHING.
- » BLOCKS SIDE VIEWS AT 35°.

THE LOOK

One smooth gimbal arc around the phone, focus locked on the screen; a marker eye doodle gets crossed out as the screen goes dark.

CAMERA AND SET (SUGGESTED)

Gimbal, 3-axis, phone camera locked on the screen; shoot on a bus or in a busy café; mark 35° on the floor with tape and rehearse the arc.

House rule: One take, one arc, no cuts: a cut is what makes a privacy demo look staged. The screen must really go dark past 35°.

B5

PHASE 2 · W-1 FRI · 3 OF 4 REVEALS

MATTE · Sun, glare, paratha fingers

Reel 9:16 · 12-15s

3 of 4 reveals

Shot outdoors at noon

0-2s

Hook text over the glossy phone in sun.

2-7s

GLOSSY: glare, prints, unreadable.

7s

HARD CUT.

7-12s

MATTE: same frame, readable, prints hidden.

12-15s

Spec text.

PROPOSED BEATS

ON-SCREEN TEXT

- » SUN. GLARE. PARATHA FINGERS.
- » STILL READABLE. PRINTS HIDDEN.
- » ANTI-GLARE MICRO-TEXTURE + OIL-REPELLENT TOP LAYER.

THE LOOK

Before/after hard cut, camera locked on a tripod so the film is the only thing that changes.

CAMERA AND SET (SUGGESTED)

Tripod, outdoors at noon in direct sun; glossy phone with greasy prints first, then MATTE, same spot; mark the phone position with tape.

House rule: Same light, same angle, same hands: one hard cut, nothing else changes.

B6

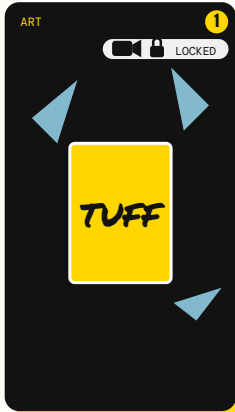

PHASE 2 · W-1 SAT · 4 OF 4 REVEALS

TUFF · Built for butterfingers

Reel 9:16 · 15-20s

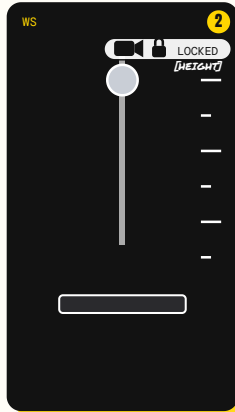

4 of 4 reveals

High frame rate

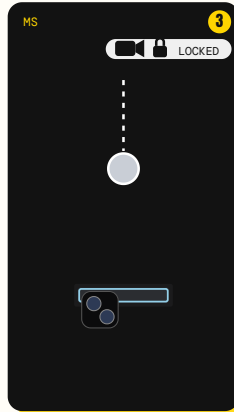

0-3s

Stylised box shot: bat and shards (art).

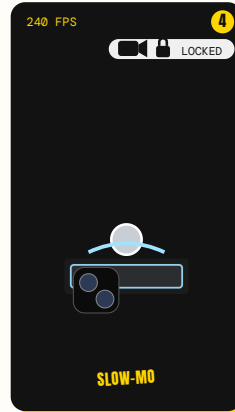

3-6s

Set-up: ball on the rig, ruler in frame.

6-9s

The drop, real time.

9-14s

Slow-mo impact: the film flexes.

14-17s

Close on the film after.

17-20s

End card.

PROPOSED BEATS

ON-SCREEN TEXT

- » TUFF.
- » STEEL BALL. REAL PHONE. [REAL HEIGHT].
- » THE FILM TOOK THE HIT.

THE LOOK

Torture test at high frame rate: black backdrop, one hard side light, the film flexing on impact.

CAMERA AND SET (SUGGESTED)

Phone at 240 fps (or camera 120 fps+), locked; black backdrop; hard side light; ruler visible in frame; steel ball from a release rig; use a dummy or a phone you can afford to lose.

House rule: Run the drop for real BEFORE the edit is planned. If it fails at one height, test lower and put the real height on screen. The bat-and-shards box shot is art, never a stand-in for the test.

C1

PHASE 3 · L · OPENING DAY

Opening day, in the founder's voice

Reel 9:16 · 30–40s

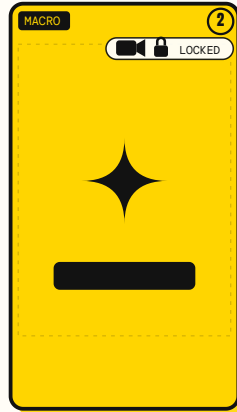

Founder voiceover

PIN IT

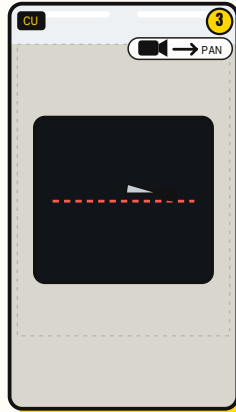

0–4s

Low-angle push-in on the kiosk.

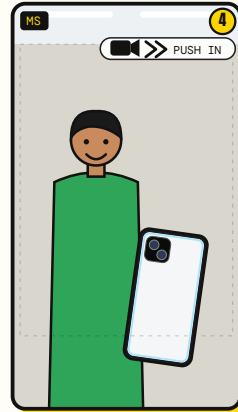

4–10s

Macro on the sparkle sign.

10–20s

The cutter working.

20–28s

The first customer.

28–34s

Founder, over a b-roll of the kiosk (voice only).

34–40s

Last frame: mall, floor, hours. Stays up.

PROPOSED BEATS

ON-SCREEN TEXT

- » SUBTITLES ON THE WHOLE VOICEOVER.
- » [MALL], [FLOOR], [HOURS] ON THE LAST FRAME.

THE LOOK

Architectural product film: slow dolly moves, warm light, shallow depth of field, the neon base glowing.

CAMERA AND SET (SUGGESTED)

Gimbal or slider for dollies, 50 mm-equivalent at f/2; warm key; record the voiceover afterwards in the founder's own accent; pin to the profile.

House rule: The draft voiceover is only a starting point; it lands better in the founder's own words. Subtitles all the way through. Sparkle sign only.

C4

PHASE 3 · L+1 · FILMED ON OPENING DAY

From worst to cut

Reel 9:16 · 20–30s

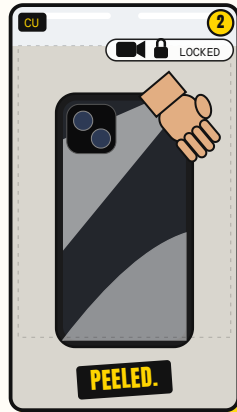

Pays off A3

Real timer on screen

0–3s

Entry #07: the wrecked phone.

3–8s

Old film comes off on camera.

8–14s

Model picked, film cut, real timer running.

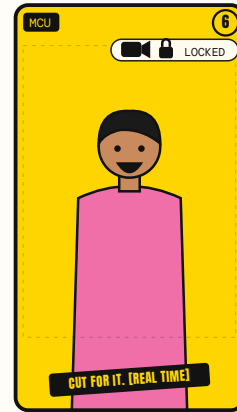

14–20s

Wipe, align, apply.

20–24s

Final press: HARD CUT to the finished phone, identical framing.

24–30s

Owner reacts in their own words.

PROPOSED BEATS

ON-SCREEN TEXT

- » ENTRY #07. WORST IN PAKISTAN?
- » PEELED.
- » CUT FOR IT. [REAL TIME].

THE LOOK

Makeover reveal: identical framing before and after, a hard cut on the final press.

CAMERA AND SET (SUGGESTED)

Tripod on the kiosk counter, one fixed medium shot so before and after match; a second device for the owner's face.

House rule: Consent form signed before filming, and again before anything goes out.

C2

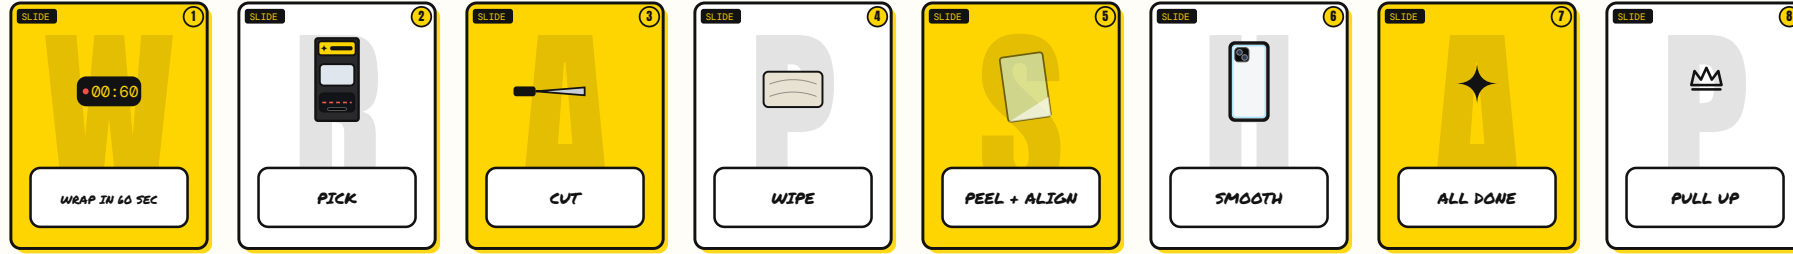

PHASE 3 · L+2

W·R·A·P·S·H·A·P: how it works

Carousel 4:5 · 8 slides

Same steps as a TikTok

AS PER PLAN

SLIDE 1: Wrap in 60 sec. SLIDE 2: Pick. SLIDE 3: Cut. SLIDE 4: Wipe. SLIDE 5: Peel + align. SLIDE 6: Smooth. SLIDE 7: All done. SLIDE 8: Pull up.

PHOTO LIST (SIX STEP PHOTOS + COVER)

- ◆ R · PICK: hand taps the model on the kiosk screen.
- ◆ A · CUT: blade crossing the film, cut line visible.
- ◆ P · WIPE: dust wipe then microfiber across the screen.
- ◆ S · PEEL + ALIGN: backing peeled, film hovering over the phone.
- ◆ H · SMOOTH: thumb and cloth pushing out the last bubble.
- ◆ A · ALL DONE: phone held flush to camera, edge to edge.
- ◆ W and P: designed slides, no photo needed.

ON-SCREEN TEXT

- » W: WRAP YOUR PHONE IN 60 SECONDS.
- » R·A·P·S·H: PICK → CUT → WIPE → PEEL AND ALIGN → SMOOTH
- » A: ALL DONE. P: PULL UP TO [MALL], [FLOOR].

THE LOOK

Bold letter-per-slide carousel: one brand colour field, a white step card in the same spot on every slide, marker arrows.

CAMERA AND SET

Six photos on the kiosk counter, same camera position and light; one hand model; the 4:5 crop with the white step card in the same spot every time.

House rule: Each step reads in about a second. The letter stays huge in the background. One location for the six step photos.

C3

PHASE 3 · L+3, THEN WEEKLY

Almost vs exact

Reel 9:16 · 20–30s

Weekly series

Macro, real sound

PROPOSED BEATS

0–3s: Macro: a nail lifts the edge of the old film. 3–9s: Dust underneath; the cut-out laps over the lens. 9–12s: Hard cut to the film cut for this phone. 12–21s: Edge flush into the curve, cut-out clean, last bubble pushed out. 21–25s: Text: Almost. / Exact. 25–30s: Closing line.

ON-SCREEN TEXT

- » ALMOST.
- » EXACT.
- » ONE WAS CUT FOR THIS PHONE. THE OTHER WAS CUT FOR A GUESS.

THE LOOK

Macro at screen level, one raking light so every lifted edge and bubble reads. Real sound, no music; text only at the end.

CAMERA AND SET (SUGGESTED)

Macro lens or clip-on macro, tripod, raking light from the side at a low angle; mark the phone position and shoot both halves without moving anything.

House rule: Never staged. The “almost” half comes off a real phone, with the owner’s permission. Same frame, same light, same hands.

C5

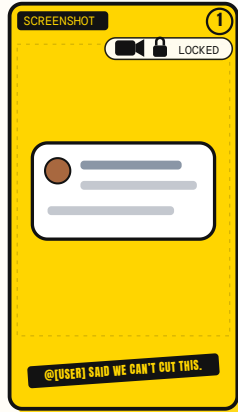

PHASE 3 · L+5, THEN WEEKLY

Stump the machine

Reel 9:16 · 15–25s

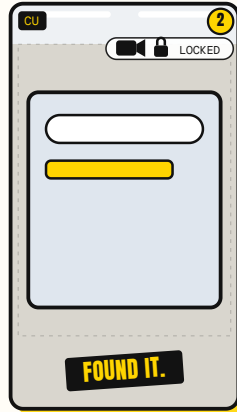

Weekly series

Pays off A5

0–3s

The comment screenshot is the hook.

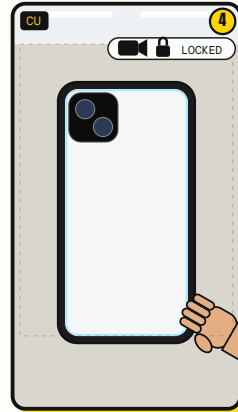

3–7s

Search the model on the kiosk screen: Found it.

7–15s

Film cut. Timer runs the whole way.

15–20s

Fit it on the phone.

20–25s

Timer stops. Tag the user.

PROPOSED BEATS

ON-SCREEN TEXT

- » @[USER] SAID WE CAN'T CUT THIS.
- » FOUND IT.
- » CUT IN [REAL TIME].

THE LOOK

Challenge format: the comment screenshot as the hook, then a fast, single-location payoff.

CAMERA AND SET (SUGGESTED)

Single location at the kiosk; one locked wide plus a handheld insert for the screen and the cut; the timer in the corner is a real stopwatch.

House rule: Real timer, no speed-ramps on the cut. One faked episode kills the series and the machine's credibility with it.

D1

PHASE 4 · WEEKLY FROM L+1

Rate the fit

Reel 9:16 · 20–30s

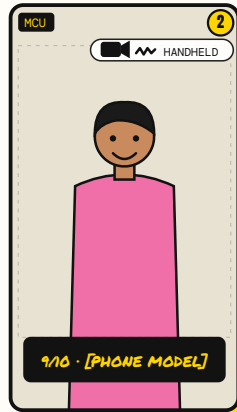

Weekly compilation

Customer content

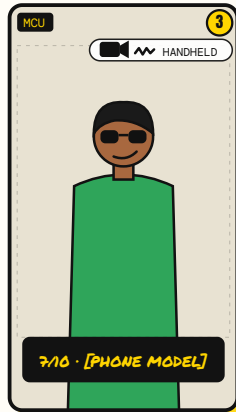

0–2s

Hook text: Rate the fit out of 10.

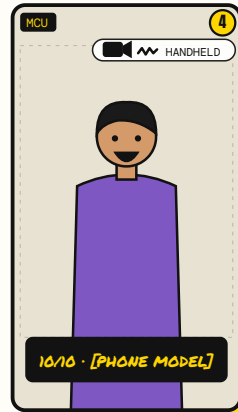

2–8s

Customer 1: holds up the phone, answers.

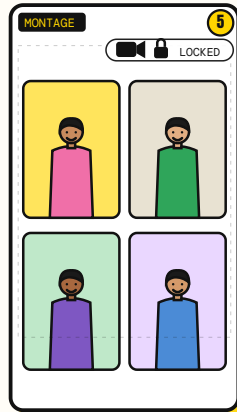

8–14s

Customer 2. A real 7 is allowed.

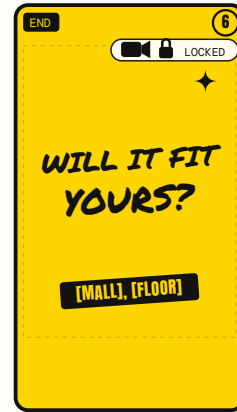

14–20s

Customer 3.

20–25s

Quick-cut compilation of the rest.

25–30s

CTA: find the kiosk.

PROPOSED BEATS

ON-SCREEN TEXT

- » RATE THE FIT OUT OF 10.
- » [THEIR REAL ANSWER]
- » [THEIR PHONE MODEL]

THE LOOK

Street vox-pop: handheld mic, tight framing, bold caption bar, quick cuts. Real people, real vibes.

CAMERA AND SET (SUGGESTED)

Handheld phone, vertical, mic in frame; same question and framing every week; a caption bar added in edit with the real answer and the phone model.

House rule: Signed or recorded permission before anyone appears. The share of customers who say yes is a satisfaction signal worth logging. Real answers only, including the sevens.

D2

PHASE 4 · L+1 WEEK, THEN PINNED IN REPLIES

"Is it glass?"

Carousel 4:5 · 5 slides

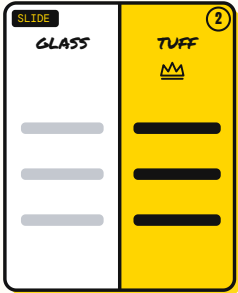

The standing objection

PINNED IN REPLIES

SLIDE 1

Hook: Is it glass? No.

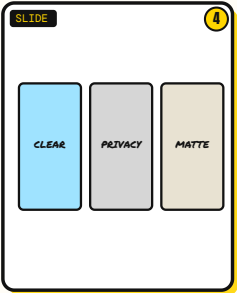

SLIDE 2

Glass vs TUFF, two columns.

SLIDE 3

TUFF spec: 0.25–0.35 mm · 4H–5H · EPU layer.

SLIDE 4

The other three finishes.

SLIDE 5

CTA to the kiosk.

AS PER PLAN

ON-SCREEN TEXT

- » *IS IT GLASS? NO. HERE'S WHY THAT'S GOOD.*
- » *GLASS: BULK, SHATTERS, CAN'T FOLLOW A CURVE.*
- » *TUFF: 0.25-0.35 MM, 4H-5H, EPU LAYER SPREADS THE HIT.*

THE LOOK

Clean two-column comparison, one column in the brand colour, a marker crown on the winning side. Closes on the other three finishes.

CAMERA AND SET

Design only, no shoot. Use the spec sheet for every figure; no stock photos of broken glass.

House rule: Impact language belongs to TUFF only. Never “unbreakable”, never “scratch-proof”: 3H–5H is scratch-resistant.

SLIDE COPY (DESIGN ONLY, NO SHOOT)

- ◆ 1 · Is it glass? No. Here's why that's good.
- ◆ 2 · Glass: bulk · shatters on impact · can't follow a curve.
- ◆ 3 · TUFF: 0.25–0.35 mm · 4H–5H · EPU layer spreads the hit.
- ◆ 4 · The other three: CLEAR, PRIVACY, MATTE, one line each from the spec sheet.
- ◆ 5 · Find the kiosk: [mall], [floor]. Link this post in replies.

D3

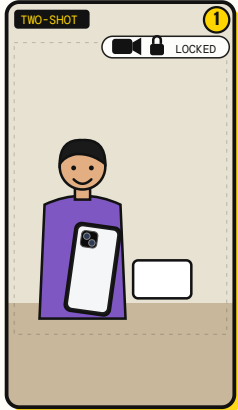

PHASE 4 · WEEKLY FROM L+1

The sneaky neighbour

Reel 9:16 · 15–20s

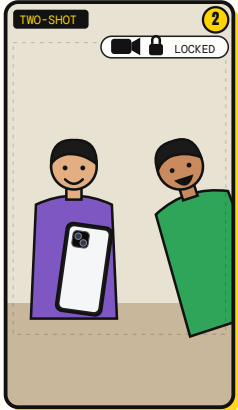

Two scenes, weekly

Proves PRIVACY

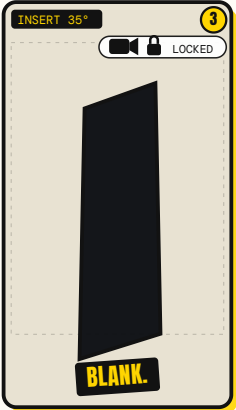

0–3s

Subject on their phone, calm.

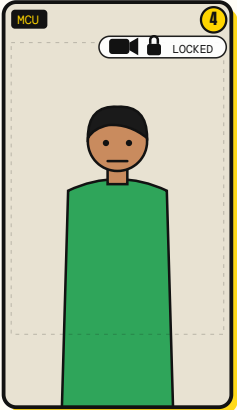

3–8s

The neighbour leans in from the side.

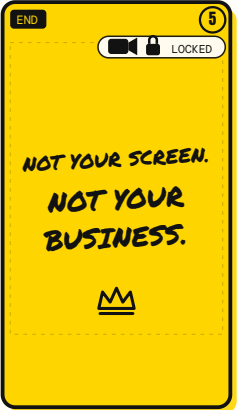

8–12s

HARD CUT: the phone at 35°. Blank.

12–15s

Neighbour gives up.

15–18s

Text card.

PROPOSED BEATS

ON-SCREEN TEXT

- » *CAFÉ WEEK: "NOT YOUR SCREEN. NOT YOUR BUSINESS."*
- » *OFFICE WEEK: "KEEP YOUR BUSINESS YOURS."*
- » *SAME PROOF BOTH TIMES: DARK PAST 35°.*

THE LOOK

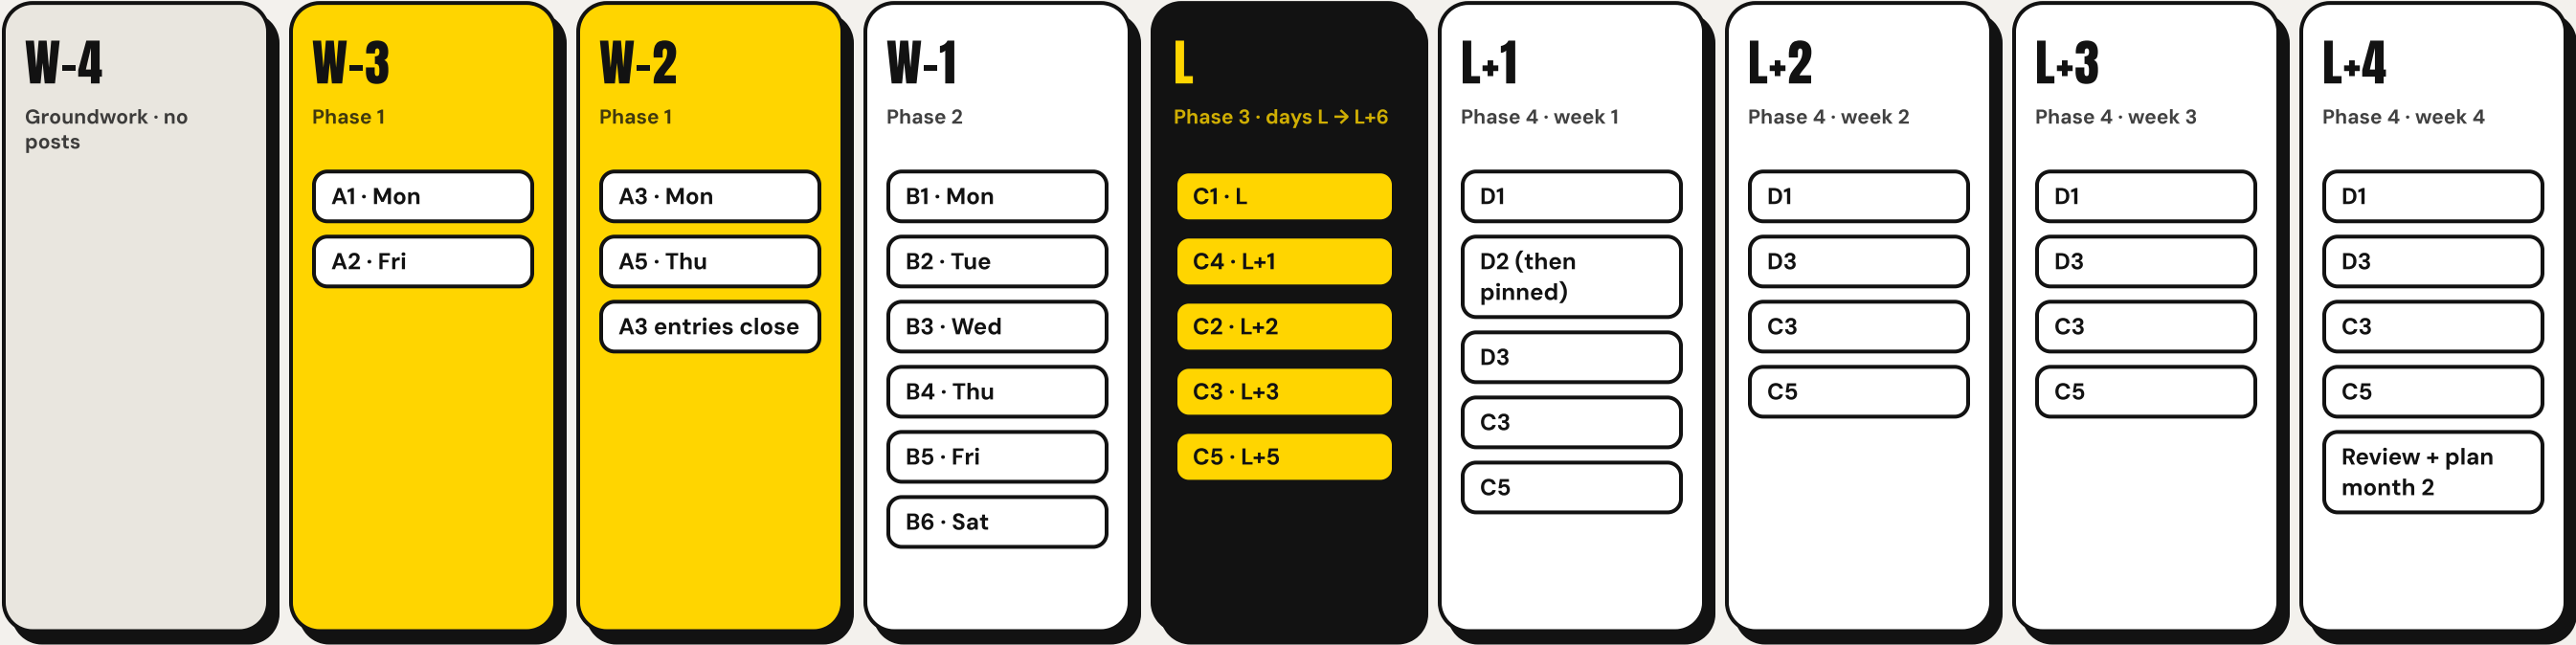

Locked-off two-shot: subject on their phone, a second person leaning in from the side. Hard cut to the screen at 35°: blank.

CAMERA AND SET (SUGGESTED)

Tripod, locked two-shot at table height (café week) or desk height (office week); a second device on a tripod for the 35° screen insert; mark 35° with tape.

House rule: Cast a friend as the “neighbour”. Never film a real bystander without consent. Keep the 35° reveal identical every week.

What gets shot for what, and when

WHERE THE SHOOT FEEDS THE POSTS (SUGGESTED)

- ◆ **S4 Which Half?** rehearses B3: decide which half carries the film before either shoots.
- ◆ **S8 Not Your Screen, Uncle** and **S7 “Glass Wala Do”** rehearse B4 and D2, with the same house rules.
- ◆ **S1, S3 and S10** hold the cut footage that C2, C4 and C5 reuse as b-roll.
- ◆ **B5 and B6** are not factory shoots: B5 needs noon sun outdoors, B6 needs a drop rig and a tested height.
- ◆ Weekly series (C3, C5, D1, D3) need one shoot day each week from L+1.

BEFORE PHASE 1 STARTS

- ◆ Swap the logo stars for the sparkle on every file and on the kiosk sign.
- ◆ Lock the opening date and the mall. No teaser goes out without a date, and no more than 3 weeks before.
- ◆ Profiles and bios are live. Batch shoot 1 is done in W-4.
- ◆ Spec sheet in hand: every number on screen is checked against it.

Quality check and open questions

EVERY CLIP AND IMAGE

- ◆ Logo is the four-point sparkle version. Zoom in and check both “a”s.
- ◆ No six-point star anywhere: logo, sign, sticker, doodle or AI-generated image.
- ◆ Every number matches the spec sheet: 0.25–0.35 mm, 4H–5H, 99%+, 35°, 0.15–0.20 mm (never reversed).
- ◆ No “scratch-proof”, “unbreakable” or “shatterproof”. Impact language is TUFF only.
- ◆ Every timer on screen is a real timer, and the “under 60 seconds” line matches it.
- ◆ The drop height on screen is the real height (B6).
- ◆ Subtitles burned in on every dialogue clip, in English.
- ◆ Consent forms on file for everyone who appears; asked again before posting.
- ◆ Mall, floor, hours and date filled in. No “[MALL]” or “[KIOSK LOCATION]” left on any frame.
- ◆ The last frame points to the kiosk.
- ◆ AI-generated art (for example from Flow): read every word on it. Image models misspell and invent text.

STILL OPEN (NEEDS THE TEAM)

- ◆ **Mall, floor, opening date.** Needed for B1, C1, C2, C5, D1, D2 and every end card.
- ◆ **What the kiosk looks like.** The frames show a generic kiosk. Send a photo and the art can be redrawn to match.
- ◆ **Real timer results** for the “under 60 seconds” claim, and the real drop height for B6.
- ◆ **Cast for Day 1:** shopkeeper, customer, three staffers, two uncles, a girl and a friend, one actor for four roles.
- ◆ **S9 timings** after 0–2s are proposed; the plan lists the order only.

WHAT THIS GUIDE IS NOT

The frames are drawn in code, in the brand’s marker style, to show framing, blocking, timing and camera moves. They are not photos and they do not show the real kiosk. The Day-1 times and the post beats marked PROPOSED are suggestions to adjust on the day. Everything else, including dialogue, on-screen text, timings and house rules, comes straight from the launch plan.
